Are you an energy hog ?

Can you answer yes to any of the following ?

☀ ***Do you ?***

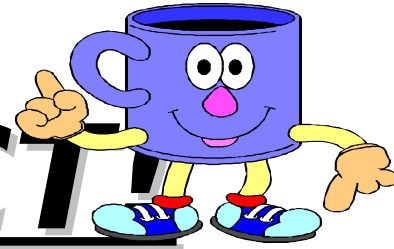

- Leave the lights on in a room you are not in.
- Leave your A/C on and windows open.
- Have the stereo & the TV on together.
- Let the water run down the drain until it gets hot.
- Leave your sprinklers on until water runs down the road.
- Run the dishwasher half empty.

DID YOU ANSWER YES ?

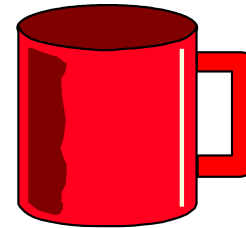

- ⦿ 85 % of Americans are guilty of wasting energy.
- ▮ We have become a “Throw it away society”.
- ▮ This causes us to waste energy.

ENERGY FACT!

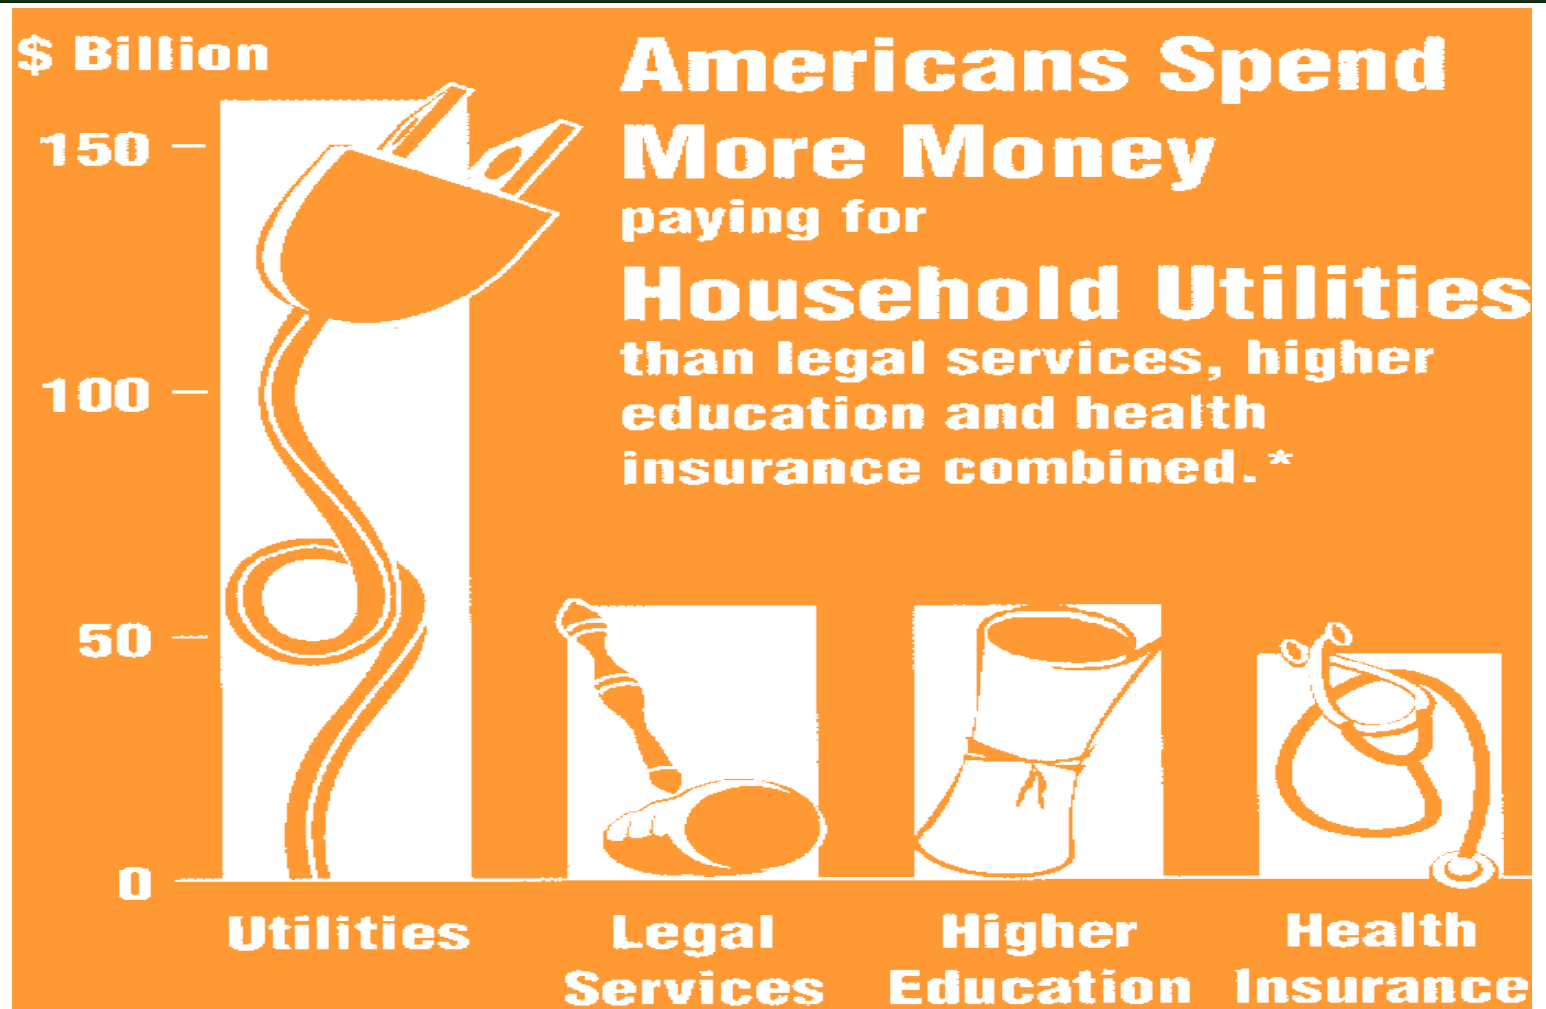

- ☀ Your ceramic mug is a miniature “power plant.”

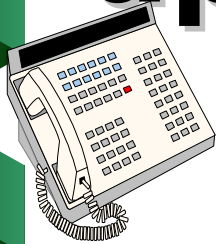

- Using one conserves the energy it would take to manufacture 500 paper cups a year.

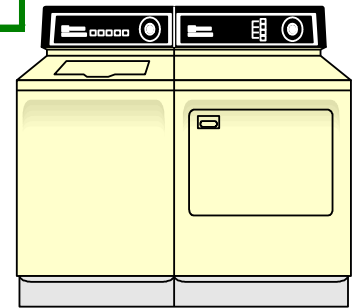

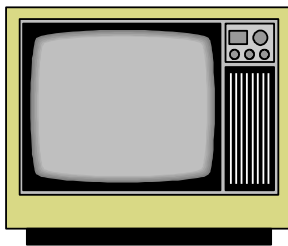

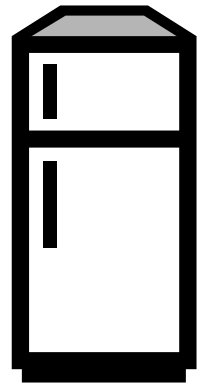

HOW MUCH DO YOU SPEND ON UTILITIES ?

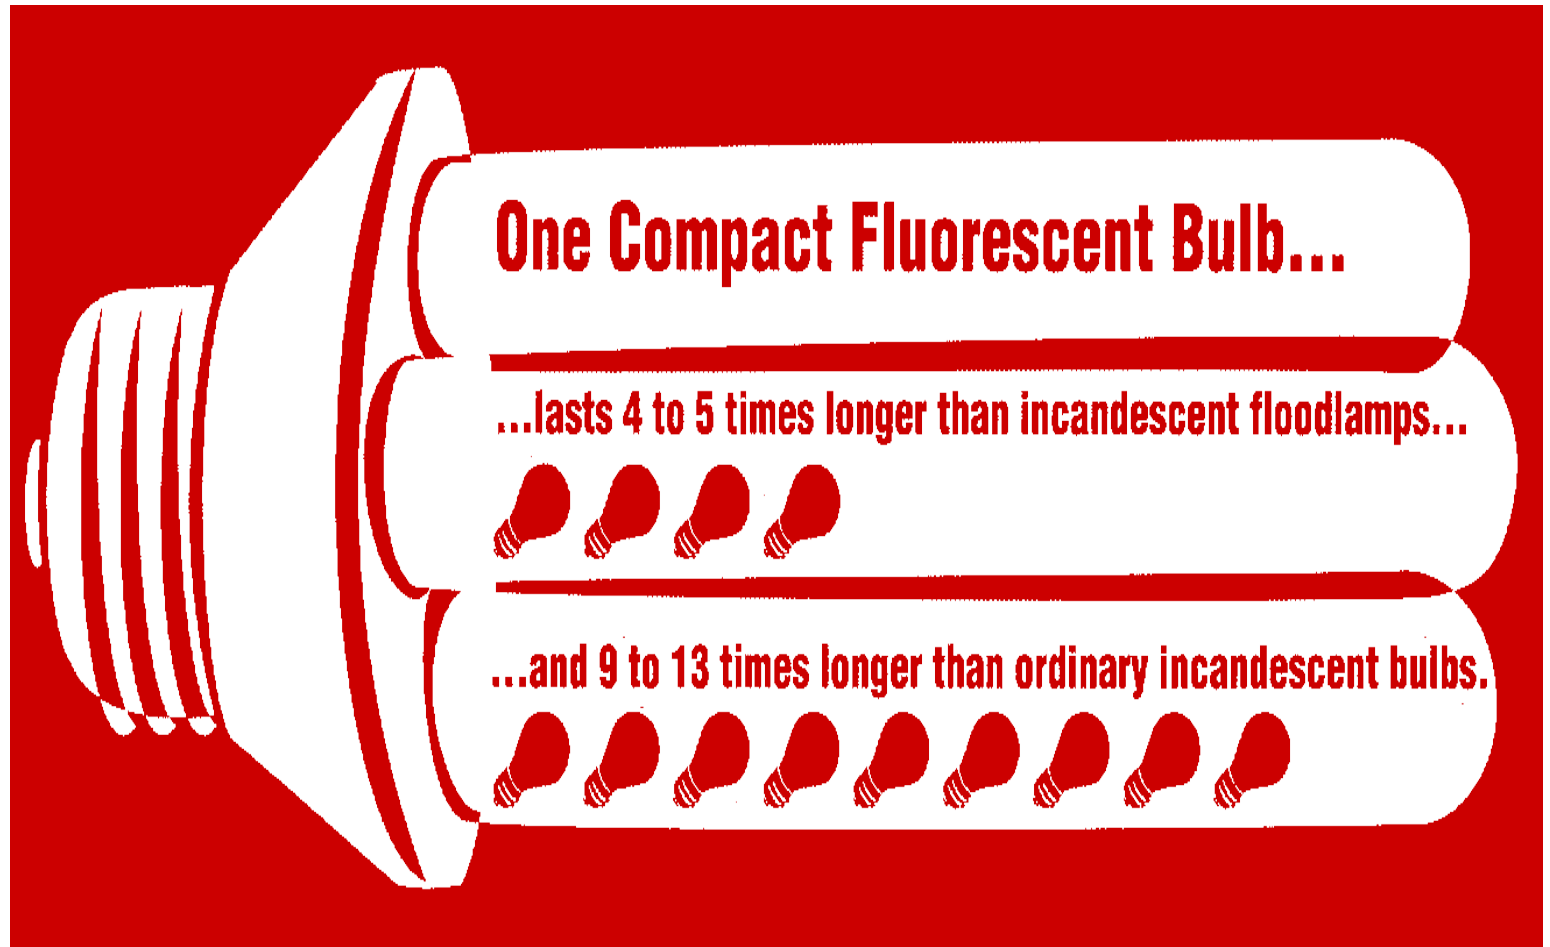

How much are you spending to run your appliances ?

Air Conditioner (3-ton air)	.82 cents per month
Dryer (<i>electric</i>)	.35 cents per load
Dryer (<i>gas</i>)	.14 cents per load
Freezer (<i>frost-free</i>)	\$ 11.00 per month
Water Heater (<i>electric</i>)	\$ 34.00 per month
Water Heater (<i>gas</i>)	\$ 14.00 per month
Washer (<i>electric</i>)	.21 cents per load
Washer (<i>gas</i>)	.08 cents per load
Television	1.5 cents per hour

Saving energy takes many forms.

One Compact Fluorescent Bulb...

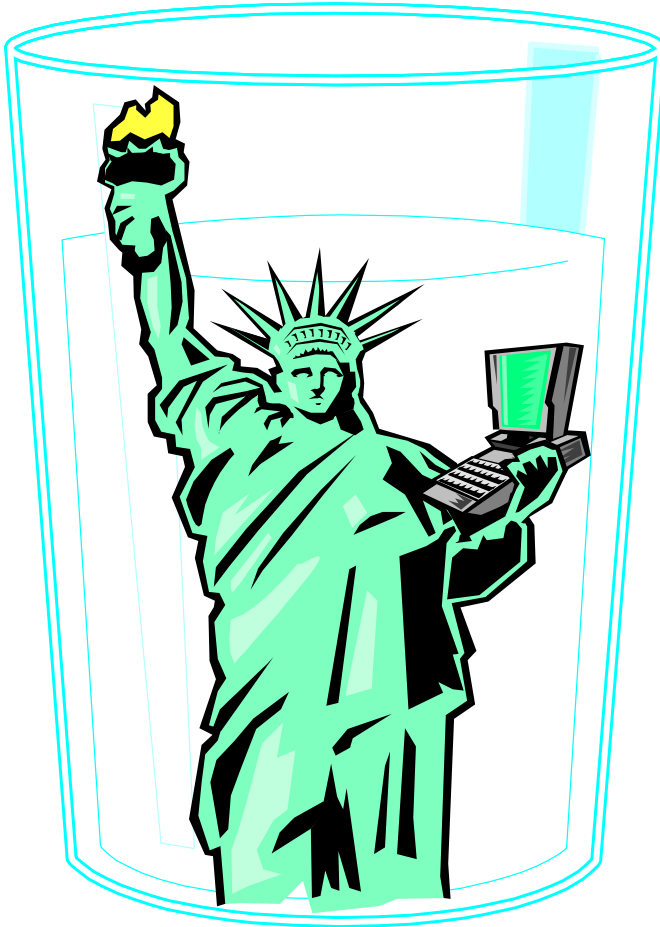

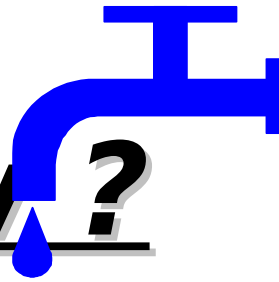

...lasts 4 to 5 times longer than incandescent floodlamps...

...and 9 to 13 times longer than ordinary incandescent bulbs.

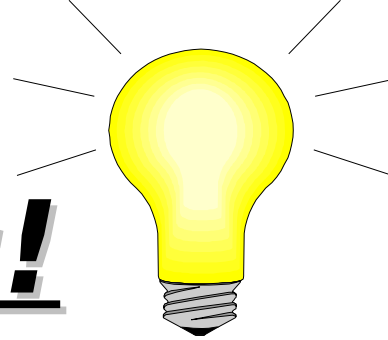

Did you know?

- If each of the 7,322,564 residents of New York City turned off their faucets while brushing their teeth, enough water would be saved in one day to fill a 7 1/2 million gallon tank as tall as the statue of liberty.

Quick tips!

- ☼ Repair leaky faucets promptly.
 - A dripping faucet can waste up to 20 gallons a day.
- ▢ Clean coils cost less.
 - Check the condenser coils on your refrigerator twice a year & keep them clean.
- ▢ Insulate your home.
 - Adequate insulation will keep your home warmer in the winter & cooler in the summer.

Quick tips!

- ☀ Clear the air & save energy.
 - To ensure proper operation, clean or replace filters regularly on furnaces & air conditioners.
- ▮ Come out of the dark .
 - Switch to fluorescent lights.
 - They are 3 to 4 times more efficient than incandescent & last 10 times longer.
